To whom it may concern

Delay in Parts supply from Kverneland

We would hereby just like to inform you that we received information that our supplier in Europe will be unable to ship any parts during the rest of the week due to mass strike action in their region.

Please bear in mind that the parts currently on order might arrive a few days later than expected.

We will keep you updated.

Thank you for your kind understanding.

Kind regards

Wessel Pretorius
Parts Manager
